WHAT'S INCLUDED

Everything you need, nothing you don't

Every mySmartCloud plan comes fully loaded — no add-ons, no surprises.

Instant Remote Access

Access files from any device, anywhere.
Desktop, mobile or browser — always in sync.

Daily Automated Backups

Your data backed up every day automatically.
No setup, no manual steps.

End-to-End Encryption

All data encrypted in transit and at rest. Your
files stay private, always.

User Permissions & Sharing

Fine-grained access control for your whole
team. Secure sharing with internal or external
users.

99% Uptime SLA

We monitor the infrastructure around the
clock so storage is available when you need it.

Fully Managed — No IT Needed

Updates, maintenance, hardware and
monitoring all handled by our team.

SIMPLE PROCESS

Up and running in minutes

01

Choose your plan

Pick the plan that fits your team size and budget. All plans are billed yearly.

02

We set everything up

Our team provisions your space, creates accounts, and configures access. No IT effort from you.

03

Connect & collaborate

Install the app, log in, and start storing files. Your team is up in minutes.

04

We handle the rest

Backups, monitoring, and updates — all managed by us. You focus on your business.
